Discuss on Zulip: #overview, topic “Motivation and history”.

1 Why it matters

1.1 In applications

[Why the problem matters in practice.]

1.2 In mathematics

[Why the problem is interesting mathematically.]

2 History

[A short account of the progress, then the history technique by technique.]

2.1 Origins

[Before the mathematical theory.]

2.2 Spectral methods

[Contributions and dates; the general theory is on Spectral methods.]

2.3 Hypocoercivity

[Contributions and dates; the general theory is on Hypocoercivity.]

2.4 Stochastic methods

[Contributions and dates; the general theory is on Stochastic methods.]

2.5 Hörmander theory

[Contributions and dates; the general theory is on Hörmander theory.]

2.6 Recent advances

[The latest steps; the details are on Extensions and recent advances.]
