Discuss on Zulip: #overview, topic “History of the problem”.

[A short account of the progress; then the history technique by technique.]

1 Origins

[Before the mathematical theory.]

2 Spectral methods

[Contributions and dates; the general theory is on Spectral methods.]

3 Hypocoercivity

[Contributions and dates; the general theory is on Hypocoercivity.]

4 Stochastic methods

[Contributions and dates; the general theory is on Stochastic methods.]

5 Hörmander theory

[Contributions and dates; the general theory is on Hörmander theory.]
